

ENHANCING SUSTAINABILITY IN PHARMA

REGIONAL SUPPORT

LEJLA POCK

Human.technology Styria

Styrian Cluster for Life Science and Health Tech

Supporting innovation through collaboration in pharma, biotech, medtech and health

Connect brilliant minds, facilitate knowledge exchange, drive innovation

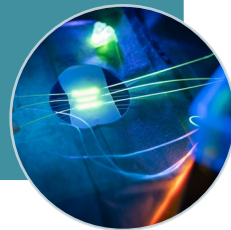

Networking, technical support, qualification, financial assistance, awareness, advocacy for the sector

STYRIA'S ECOSYSTEM FOR SUSTAINABILITY IN PHARMA

- Leading institutions providing cutting-edge technologies and research
- Excellence in advanced manufacturing in pharma (RCPE) & industrial biotechnology (acib)

RESEARCH
& CENTERS OF
EXCELLENCE

- Groundbreaking technological solutions for sustainable manufacturing of pharmaceuticals in industrial environment
- Process development to keyturn projects
- Platforms, digital technologies, and solutions for sustainable manufacturing

ENGINEERING
AND OTHER
TECH COMPANIES

- Local pharmaceutical companies
- Key players in the production of pharmaceuticals committed to sustainable practices

MANUFACTURERS

NETWORK, SUPPORT & TRAINING

HTS (Human.technology Styria)

BNN (BioNanoNet)

...

OUR SUSTAINABILITY PROGRAM

- Sustainability Talks: Knowledge sharing events
- Sustainability Academy: Educational initiatives
- Enabling Transformation: Financial and technical support for sustainability projects
- Success Stories: Highlight recent successful initiatives and their impact

the European Union

Funding & Support Enabling Transformation

FINANCIAL SUPPORT

- € 500,000 allocated for consulting services

PROJECT BREAKDOWN

- 14 projects funded with €40,000 each.
- 75% of project costs covered by EU/EFRE/HTS.

FOCUS AREAS

- Climate strategy, circular business models, sustainability management, digital innovation

CURRENT STATUS

- 3 completed
- 8 ongoing
- 3 open for application

Co-funded by
the European Union

Case Study

Lorenz Consult

COMPANY FOCUS

- Innovative engineering that designs laboratories, pharmaceutical buildings, and hospitals from the initial concept to turnkey delivery and oversees their construction

PROJECT TIMELINE

- January 2024 – June 2024

GOALS

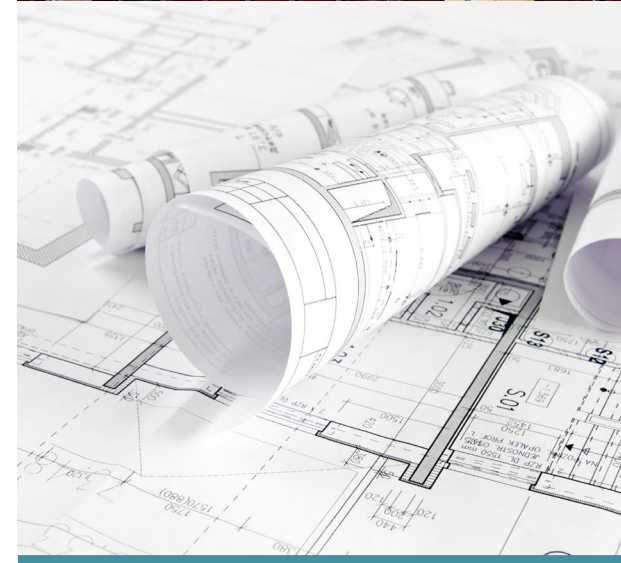

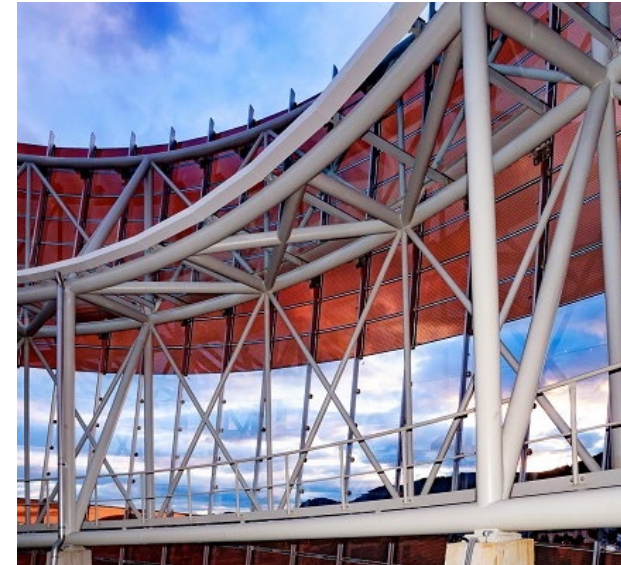

- Develop sustainability strategy and management
- Create sustainable business models and circular economy scenarios

PROCESS

- Status quo analysis
- Strategy workshops (KPIs, sustainability goals)
- Governance structure for operational sustainability management

SUCCESS

- High strategic and operational impact, leading to ongoing follow-up activities

- Engage with us!
- Explore opportunities!
- Collaborate on sustainability initiatives!
